

# Performance Breakthrough

With years of experience and continuous development new products in the satellite field, Agilis Communication Technologies (ACT) was recently awarded globally recognized Radio Frequency ( RF ) certifications from Europe and China. These certifications attest to the superior performance of Agilis Satellite products which 'are supplied throughout the world.

The RF certifications for VSAT Outdoor RF transceiver cover two extremely stringent RF testing and evaluation done by top certification authorities in Europe

for the CE mark and in China for the telecommunication authority certification. The RF certifications cover:

1. IESS 308 and IESS312 Intelsat Earth Station standard by China Radio Authorities.
2. ETS 300 673 product standard following the provisions of EMC directive 891366/EEC meeting CE (Conformite European) requirements.

With these achievements, Agilis is now well poised to provide reliable and cost effective C/Ku band VSAT Outdoor RF transceivers that meet world class standard.
